INTRODUCING

COIN98 EXCHANGE

THE MULTICHAIN DEFI PLATFORM FOR EVERYONE

BROUGHT TO YOU BY

COIN98 FINANCE

• We are a team of DeFi builders in Asia who desires to build an ecosystem of DeFi products that is more accessible to TradFi users.

• In 2020, we built Coin98 Wallet as our first product for few reasons:

- Wallet is the core component of any blockchains.

- We believe that a multi-chain wallet engine is the core component of future multi-chain/cross-chain protocols.

- A multi-chain wallet engine will facilitate the protocols/dapps to provide a better user experience and easier control of the product implementation process.

- People use different protocols/dapps for the same need, but they usually stick with only one wallet. Hence, a multi-chain wallet engine can become the moat factor of our upcoming products.

• After a year of building Coin98 Wallet, we are ready to ship our next product: Coin98 Exchange.

COIN98 EXCHANGE

MARKET OPPORTUNITY

• Undoubtedly, DeFi is the future in which DEX will be playing an irreplaceable role. Nevertheless, there are specific hurdles with the current DEX market, namely sustainable liquidity and ease of use. Coin98 Exchange aims to break these limits and bring DeFi towards mainstream adoption.

C98 TOKEN ECONOMICS

The native digital cryptographically-secured utility token of the Coin98 Exchange (C98) is a transferable representation of attributed functions specified in the protocol/code of the Coin98 Exchange, and which is designed to be used solely as an interoperable utility token on the platform.

- SERVICE FEES

  Coin98 Exchange will charge users a small fee payable in C98 for each trade.

- PRODUCT DEVELOPMENT AND GROWTH

  To develop a self-sustainable, closed-loop economy, all platform transaction fees collected by the network, whether in C98 or otherwise, would be re-distributed as incentives for active contributors within the ecosystem, or set aside for future product development and ecosystem growth.

- STAKING INCENTIVES

  In order for the Coin98 Exchange to function properly, it is critical to incentivise users to play the role of liquidity providers and stake their digital assets into the decentralised market making pools. As compensation for opportunity costs, these liquidity providers which help to provide liquidity for the operations of the Coin98 Exchange by staking or including assets to liquidity pools in exchange for liquidity provider tokens would be rewarded with C98 tokens (i.e. “liquidity mining" on the Coin98 Exchange), according to each user's relative contribution after various adjustment and correction parameters.

- GOVERNANCE

  To promote decentralised community governance for the network, C98 would allow holders to propose and vote on governance proposals to determine features and/or parameters of the Coin98 Exchange and products thereon. For the avoidance of doubt, the right to vote is restricted solely to voting on features of the Coin98 Exchange; the right to vote does not entitle C98 holders to vote on the operation and management of the Company, its affiliates, or their assets or the disposition of such assets to token holders, and does not constitute any equity interest in any of these entities. The arrangement is not intended to be any form of joint venture or partnership.

- UNIQUE PARTICIPATION RIGHTS

  C98 holders would be sorted into different tiers. Users with more C98 held will be sorted into a higher ranked tier, and users in higher tiers will gain exclusive access to premium events and privileges, such as priority for launchpad participation, marketing events with strategic partners.

C98 TOKEN METRICS

Total Supply	1,000,000,000
Ticker	C98
Standard	ERC-20, SPL, BEP-20

Token Allocation	Allocation (%)	C98	Vesting Schedule
Team	20.00%	200,000,000	4 years vesting, 1 year cliff, linear unlock starting from the 2nd year
Advisors	2.00%	20,000,000	3 years vesting, 1 year cliff, linear unlock starting from the 2nd year
Seed	5.00%	50,000,000	3 years vesting, 1 year cliff, linear unlock starting from the 2nd year
Strategic	15.00%	150,000,000	2 years vesting, 1 year cliff, linear unlock starting from the 2nd year
Ecosystem Growth	21.00%	210,000,000	4 years vesting, 30% release at TGE, linear unlock starting from the 2nd year
Community Development	20.00%	200,000,000	4 years vesting, 30% release at TGE, linear unlock starting from the 2nd year
Liquidity Incentives	5.00%	50,000,000	100% release at TGE
Foundation Reserves	12.00%	120,000,000	4 years vesting, 10% release at TGE, 1 year cliff, linear unlock starting from the 2nd year
